

process, I believe a full and open investigation into this matter is necessary to restore the integrity of both the U.S. Congress and the Constitution.

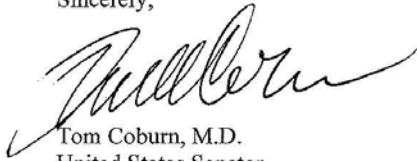

I thank you for protecting my rights as a U.S. Senator and I look forward to working with you to create a select committee, comprised of Members of both the House and Senate, to investigate the events that led up to the unauthorized change and to provide a full accounting of the matter to the American public.

Sincerely,

M.D.

United States Senator
